---

## PROFESSIONAL EXPERIENCE

**Bahojutech - Hybrid**

**November 2024 - April 2025**

**Front-end Developer & Development Lead**

Bahojutech is a digital solutions company specializing in web and mobile development, digital marketing, and business branding—helping brands grow through tech and design.

Accomplishments:

- Led the front-end team in building the admin dashboard for a ride-hailing application.
- Developed a responsive e-commerce interface in collaboration with UI designers and backend developers, leveraging Next.js for performance and scalability.
- Created detailed product overviews to align features with business goals.
- Supported the digital marketing team in campaigns and brand visibility efforts.
- Implemented SEO best practices and helped list the company on Google to boost online visibility.
- Took charge of building and integrating user interfaces across web platforms, ensuring performance and usability with Next.js.

**Paatee - Remote**

**August 2024 - January 2025**

**Front-end Developer & Development Lead**

Paatee is a web app that connects users with party vendors, simplifying the process of finding and booking services for events.

Accomplishments:

- Led the front-end development for Paatee, a web application designed to streamline the process of finding party vendors
- Utilized Next.js 14, GraphQL (Apollo Client), and Tailwind CSS to build responsive, efficient, and dynamic user interfaces. Writing usable and scalable codes.
- Implemented complex GraphQL queries and mutations to manage and interact with party vendor data.
- Collaborated closely with the backend and design teams, ensuring a seamless integration of UI/UX design with front-end functionality.

**Freelance Mobile Developer**

Ciniki is a mobile currency exchange product designed to offer real-time conversion, secure transactions, and a seamless user experience across Android and iOS platforms.

Accomplishments:

- Designed and developed a mobile currency exchange application for Ciniki using React Native.
- Focused on building a responsive and user-friendly frontend interface with real-time currency conversion capabilities
- Implemented secure user authentication and seamless user experience across Android and iOS platforms.
- Collaborated directly with the client to refine features and implement necessary updates throughout the project cycle.

**Exagorazotechhub - Onsite****September 2023 - January 2024****Frontend Mentor**

Exagorazo is a tech institution offering courses in frontend and backend development, UI/UX design, and data analysis to prepare students for careers in tech.

Accomplishments:

- Provided personalized mentorship and guidance to students, helping them master HTML, CSS, JavaScript, and React, which led to high course completion rates and strong student satisfaction.
- Designed and implemented a dynamic, project-based curriculum that enhanced student engagement and learning outcomes in frontend development,
- Developed comprehensive learning materials, including tutorials, coding exercises, and project guides, that simplified complex concepts and improved student understanding.
- Encouraged peer learning and collaboration through group projects and code reviews, fostering a supportive learning environment that boosted student confidence and skills.

**LaLibreria Bocas - Remote****March 2022 - AUGUST 2022****Wordpress Developer**

LaLibreria Bocas is an online book store

Accomplishments:

- Built and managed the e-commerce website, incorporating all aspects of the business's unique branding and vision.
- Implemented a robust and user-friendly ordering system that streamlined the process of taking and fulfilling customer orders.
- Set up multiple payment options, including credit card processing, PayPal, and bank transfers, to provide customers with a seamless and secure checkout experience.
- Wrote all of the copy for the website, incorporating keywords and phrases optimized for search engines to drive traffic and improve visibility
- Utilized various optimization techniques to improve website speed, resulting in faster page load times and a better overall user experience
- Strengthened the website's security measures to prevent hacking and other malicious activities, ensuring that customer information and transactions remained safe and secure.
